Kevyn Diaz

+52 (656) 362-7851 | El Paso, Texas (Willing to Relocate) | Kidiaz2@miners.utep.edu | http://linkedin.com/in/kevyn-diaz

SUMMARY OF QUALIFICATIONS

- Experience in engineering, logistics, and supplier change management in the automotive industry.
- Skilled in process improvement, technical documentation, and cross-functional collaboration.
- Strong analytical, problem-solving, and project management abilities.

EDUCATION

Master of Science in Manufacturing Engineering Expected: May 2027 | GPA: 4.0
The University of Texas at El Paso (UTEP)

Bachelor of Science in Business Management Engineering Graduated on May 2025 | GPA 4.0
Instituto Tecnologico de Ciudad Juarez (ITCJ)

- Excellence Undergraduate Student, 2025

Bachelor of Science in Mechatronics Engineering Graduated on May 2023 | GPA 4.0
Universidad Tecmilenio, Ciudad Juarez

- Excellence Undergraduate Student, 2023

EXPERIENCE

Graduate Research Assistant January 2026 – Present
Texas Manufacturing Assistance Center (TMAC) El Paso, Texas

- Supported ISO 9001 certification for 7 local manufacturing businesses by guiding QMS documentation, compliance activities, and audit preparation as part of a team target of 35+ certifications by 2027.

Graduate Research Fellow January 2026 – Present
Mike Loya Center for Innovation and Commerce (MLCIC) El Paso, Texas

- Mapped healthcare procurement opportunities across the Borderplex by engaging 49 hospitals and 18 clinics to identify buyer needs, sourcing challenges, and supplier gaps across El Paso, Ciudad Juárez, and Las Cruces.
- Built an opportunity database to prioritize medical supplier categories and assess regional capability gaps by analyzing buyer requirements, local manufacturing capacity, and regulatory barriers.
- Identified strategic pathways for local supplier integration into healthcare purchasing by documenting GPO-driven procurement patterns, import dependencies, and unmet regional sourcing needs.

Supplier Change Specialist Engineer October 2024 – February 2025
Aptiv, Mexico Technical Center (MTC) Ciudad Juarez, Chihuahua

- Approved and executed supplier change requests in compliance with engineering and quality standards, coordinating implementation across multiple databases and stakeholders.
- Minimized production disruption by aligning engineering, quality, and operations teams on supplier change priorities and follow-up actions.

Logistics Technician April 2024 – September 2024
Mahle Ciudad Juarez, Chihuahua

- Managed national and cross-border logistics operations by scheduling routes, communicating with carriers, and supporting timely freight movement.
- Maintained accurate supplier, invoice, PO, and freight records to support cost control and operational reliability.

Supplier Change Coordinator Intern July 2022 – July 2023
Aptiv**,** Mexico Technical Center (MTC) Ciudad Juarez, Chihuahua

- Resolved a 2-year backlog of 282 supplier change requests by coordinating cross-functional teams and preventing potential supply shortages.
- Supported engineering change management by documenting BOM updates, supplier changes, and design modifications in compliance with internal requirements.

SKILLS AND CERTIFICATIONS

- Languages: English (Fluent), Spanish (Native).
- CAD (SolidWorks, Siemens NX, AutoCAD), MATLAB, NI LabView, Minitab, SAP, MS Office.
- Lean Manufacturing Six Sigma Green Belt Certification by SigmaPro on May 2023.
- Project Management Fundamentals Certificate by Arizona State University on December 2023.
